

## **National Graphene Action Plan 2020: Transforming Innovation Delivery**

**Ku Kok Peng**

Performance Management & Delivery Unit (PEMANDU), Malaysia

The National Graphene Action Plan 2020 is probably the first attempt at an end-to-end active facilitation to deliver innovation, from awareness building and project execution and funding to scale-up support, monitoring and reporting. If proven successful, it is potentially a model that can be replicated to fast-track innovation in other strategic sub-sectors.
